

Integrating Grassroots Communities into Biowaste Circular Economy Opportunities to Strengthen Resilience and Amplify Policy Influence through BSF-Based Waste Valorisation

EU contribution: € 234 000.00. (Pula 3,627,000)

Period of implementation: from 01/06/2026 to 01/06/2026

Location: Botswana

Implementing organisation(s): Botswana Climate Change Network (BCCN)

Project objectives and description: Contribution to reduced environmental footprint of organic waste management and support to Botswana's green transformation

Specific Objectives/outcomes:

1. Participation of grassroots actors in sustainable and inclusive circular economy value chains
2. Enhanced institutional capacity and evidence base to support circular economy policy and practice.

Outputs / expected results:

1. Community-based BSF biowaste valorisation systems established and operational
2. Grassroots actors capacitated to manage BSF systems and participate in circular economy value chains
3. Evidence and knowledge products generated to inform policy and scaling up
