

CLARIFICATION NOTE N. 1

to Tender Dossier of the call for tenders

Ref. EUBAM-26-15

“Supply and Delivery of 100 handheld Global Positioning System (GPS) devices”

With the present Clarification Note n. 1 to the Tender Dossier of call for tenders “EUBAM-26-15- Supply and Delivery of 100 handheld Global Positioning System (GPS) devices”, the below question submitted by one economic operator is responded by the Contracting Authority as follows:

QUESTION	ANSWER
Could you please clarify whether the requested handheld GPS devices must include built-in satellite tracking, two-way messaging, and emergency SOS distress signaling capabilities (such as Garmin inReach technology), or if the requirement is strictly for standard GPS navigation and positioning receivers?	The requirement is for standard handheld GPS navigation and positioning receivers capable of satellite-based positioning and navigation in accordance with the technical specifications. The requirement is for standalone handheld GNSS navigation devices. Integrated satellite communication services, including subscription-based services, are outside the scope of this call for tenders.
