TRANSPORT / CONNECTIVITY

Supporting sustainable and better-connected transport across Jordan.

EU–Jordan commitment to transport & connectivity

Total budget since 2025

Over €26 Million in grants

Key areas of support

Public transport connectivity

Railway safety and interoperability

Aviation safety and operations

Port safety and efficiency

Connecting Amman with key cities

Public transport connections between Amman and:

- Salt
- Jerash
- Irbid
- Karak

Flagship project

Supporting the Ministry of Transport's Strategic Plan (2024–2028) with

€22 Million

For a more sustainable, modern and connected transport system across Jordan.

Key Conference expected deliverable

€1.5 Million

EU–Jordan government-to-government (G2G) knowledge-transfer project on transport decarbonisation.

A broader impact

- Better public transport connections to key cities
- Reduced congestion and air pollution
- Faster and more efficient routes for businesses
- More inclusive and accessible transport
