

EUMA-2026-06_Framework Contract for the Supply of Vehicle Spare Parts & Maintenance Services

This document contains an overview of clarification requests asked by tenderers, and the replies from EUMA.

No.	Topic	Clarification request from tenderer	EUMA reply
1.	Instructions to Tenderers	What exact list of documents is required from us to ensure a complete tender package?	You can find the required list of documents in point 11 (“Content of Tenders”) of the Instructions to Tenderers (Folder A).
2.	Sub-contracting documents?	Are we correct in understanding that, given that we have been implementing a similar contract (...), we don't need to attach any subcontracting documents?	Based on point 3 (“Participation”) of the Instructions to Tenderers (Folder A), all tenderers must provide subcontracting documents, regardless of their previous experience.
3.	Delivery and acceptance act.	EUMA -2026-06 C11 Prov Accept – do we need to fill out anything here?	No
4.	Annex II + III Tech Specs	Will the tender require us to supply only the same spare part model (brand) for three years, or is it possible to use EUMA -approved interchangeable parts (what if a certain part stops being available in a year or two, but similar options from other brands remain available)? This will help us understand the situation.	Yes, we can agree that if the tenderer can't find the spare parts from the same brand they can offer EUMA quotations from other brands.

Deadline for submitting tenders remain **04.05.2026, 13:00 Armenian time**. Offers should be sent to tenders@eum-armenia.eu and
The reference number of this procedure (EUMA/2026/06) must be clearly marked in the email containing the tender
