GROWING TOGETHER THROUGH PARTNERSHIPS

Strengthening sustainable livelihoods
through collective action.

Collective Access

Collaboration is essential for progress. Sustainable supply chain can only be achieved when everyone works side by side.

“To access the European market, we cannot act individually. It must be done collectively as a group.”

Sumisno,
Rubber Farmer

EU partnerships open access to new markets and shared growth. By strengthening cooperation and alignment between stakeholders, inclusive participation across the value chain is ensured.

Productivity & Motivation

Shared efforts build farmers' confidence and capability, delivering real change on the ground.

"These partnerships really motivate farmers and have brought significant improvements in their productivity."

Zaitun,
Buying Station Agent

Price Stability & More Control

Through long-term cooperation, partnerships help create more stable and fair outcomes for farmers.

“I’m confident that through these partnerships, pricing outcomes for farmers will improve compared to before.”

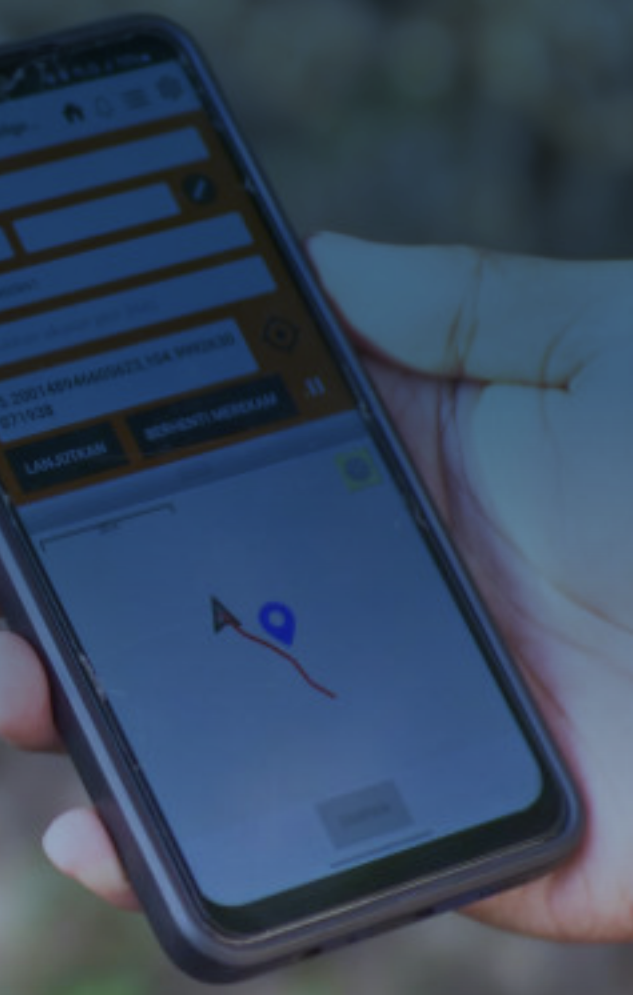

Surahman,
Head of Plantations, Livestock and Fisheries Agency, Central Lampung

Traceability & Long-Term Value

Responsible partnerships support traceable supply chains while rewarding commitment and performance across the value chain.

“We plan to establish a loyalty programme that acknowledges and rewards our traders and farmers, strengthening our competitive edge.”

Robi Ramdani,
Responsible Sourcing Supervisor, Olam Agri

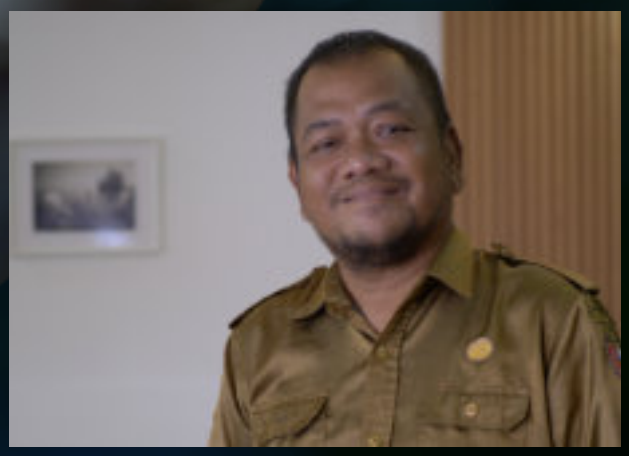

Collaboration That Empowers

Behind every strong farmer is an even stronger network. Government, industry partners, and local communities work together to ensure knowledge, transparency, and sustainability reach every cocoa farm.

“We cannot do this alone. Collaboration between government, farmers, and private partners is essential to meeting global standards such as the EUDR.”

Dodi Nurhidayat,
Head of Plantation Division, Sigi
