

European Union
Delegation to Singapore

Joint Local Statement following an execution in Singapore

30 April 2026

The Delegation of the European Union issues the following statement, together with the diplomatic missions of the EU Member States and the diplomatic missions of Norway, Switzerland and the United Kingdom in Singapore:

The EU Delegation and the diplomatic missions of the EU Member States, Norway, Switzerland and the United Kingdom deplore the execution of a 65-year-old Singaporean citizen on 29 April 2026.

Nine executions have now been carried out in Singapore this year. In keeping with our consistent strong and principled stance, we express our opposition to the use of capital punishment, in all cases and in all circumstances. The death penalty is incompatible with the inalienable right to life and the absolute prohibition of cruel, inhuman or degrading punishment.

International human rights law restricts the use of capital punishment to the most serious crimes, understood as crimes of extreme gravity involving intentional killing. Resorting to the death penalty to prevent drug production and trafficking does not meet this threshold. There is no conclusive evidence that the death penalty contributes to curbing or preventing drug trafficking more than other types of punishment.

Furthermore, it is a definitive punishment that renders it impossible to reverse possible miscarriages of justice.

We will continue to work for the abolition of the death penalty in the dwindling number of countries that still apply it. Therefore, we call for Singapore to adopt a moratorium on all executions as a first step towards its full abolition, in line with the trend in the Southeast Asian region and worldwide.
