MESSAGE FROM THE AMBASSADOR

Message from the Ambassador addressed to the general public, with the focus on families and children, inviting them to follow weekly program and wishing them a happy Europe week. The video will be recorded by a professional team.

SUCCESSFUL KOSOVO EUROPEANS

Videos of Kosovo artists, performers, football players and other personalities living in EU will talk about the importance of being united in Europe and the way Europe welcomed them and allowed them the space to excel and shine in their respective fields. Each one of them will share their current working engagements, by also giving messages of hope and inspiring statements about youngsters from Kosovo who want to excel within the European market;

SISLEJ XHAFA

Sislej Xhafa works across mediums and dimensions in order to explore and, oftentimes, further obfuscate the social, political, economic, and quotidian complexities of modern life. "Reality is stronger than art," Xhafa says. "As an artist I do not want to reflect a reality, but I do want to question it." His research-based and participatory practice, which he has referred to as examining the "politics of interruption", has a humour that is tongue-in-cheek at its most docile and subversive in its extreme.
