

# THE EU AND WOMEN IN NORTHERN NIGERIA

## A PHOTO PRESENTATION

This project is funded by  
the European Union

## Photography Campaign Documenting the Impact of EU Interventions on Women in Northern Nigeria

The European Union (EU) has been present in Nigeria for over 40 years supporting the government and the people in promoting human rights, economic and social development efforts as well as developing trade, political and cultural relations between Nigeria and Europe.

The EU Delegation to Nigeria is also responsible for relations with ECOWAS and the management of an important development cooperation portfolio which covers the countries of the ECOWAS region. This however, has not translated into solid gains for the rights of women and children especially in the Northern States of Nigeria. Specific socio economic and cultural prejudices continue to be used to undermine women's adequate and effective representation in all tiers of Government.

The specific objective of this assignment is to improve the visibility of projects funded by the EU in Nigeria by focusing on the impact of EU interventions in promoting women's rights, engagement and participation in Peace and Stability in Northern Nigeria. This engagement is expected to strengthen the outreach to citizens, key stakeholders and, to actively encourage a broadened interest among existing target audiences in the EU policies; while finding the means to increase the interest among new target audiences.

Diginervz Media Ltd, the contractor for this project led by Mr. Ochai Samuel, the Lead Photographer, has been successful in its role towards achieving the objectives of the assignment in six States<sup>1</sup> in Northern Nigeria by capturing clear images and short contextual interviews of beneficiaries under the following EU supported programmes:

1. EU Support to Scale-Up Maternal and New Born Child Health Outcomes for States in Northern Nigeria (EU-MNCH)
2. EU Support to Immunisation Governance in Nigeria (EU-SIGN)
3. Strengthening Community-Based Psychosocial Support and Protection Services for Children and Adolescents in Bornu State, Nigeria
4. Promoting Women's Engagement in Peace and Stability in Northern Nigeria

The images captured largely depict the expressions of beneficiaries and the impact of the EU's intervention in their lives, providing a graphic context for story telling about the EU's efforts in the target states.

These images will be used for web-content to illustrate and enhance articles and reports.

Also, they will be showcased in future EUD Nigeria exhibitions thus increasing the visibility of the EU's efforts, highlighting the role of the EU as a global actor, providing insight into its work and interest among its stakeholders.

# EU SUPPORT TO SCALE-UP MATERNAL AND NEW BORN CHILD HEALTH OUTCOMES FOR STATES IN NORTHERN NIGERIA (EU-MNCH)

FOCAL STATE - ADAMAWA STATE

*Delivering maternal health services to hard to reach communities*

At Yadim Primary Health Care Center located in a remote village in Adamawa State, nursing mothers and pregnant women troop in daily either to receive vaccines for their babies or to receive maternal medical consultation. The Centre is funded by the European Union under the EU Support to scale-up Maternal and Newborn Child Health Outcomes in Northern Nigeria (EU-MNCH).

*Good health for all no matter where you live*

Mrs. Aishatu Suleiman (7months pregnant) and her 3year old son live in Farang LGA, a far remote village which is about 200km from the city center (Jimeta) Adamawa state. She and her son are beneficiaries of the EU-MNCH funded health care provided at Farang Primary Health Care Center Adamawa State.

*Preventing disease with clean water*

At Fufure LGA in Adamawa State, a young lad takes a quick evening bath.

*"I will no longer seek the service of untrained traditional birth attendants as I almost lost my life twice after I bore my first and second child."*  
Amina Hassan.

Amina Hassan is a beneficiary of the EU-MNCH funded program. She lives at Maiha LGA. Adamawa State.

© EU Delegation Nigeria, Photo by Ochi Samuel, 2017.

*"I have three children, Musa, Abubakar and Suleiman. I was given safe delivery kits (free) at the PHC center when I was pregnant for Abubakar and Suleiman. Also, I was educated on the need for good nutrition, adequate rest, good hygiene, family planning, breastfeeding, and the importance of immunization."*  
*Salamatu Garba*

Salamatu Garba is a beneficiary of the EU-MNCH project at Maiha Primary Health Care Center Adamawa State.

© EU Delegation Nigeria, Photo by Ochi Samuel, 2017.

*Introducing good healthcare right at her your doorstep*

Mrs. Colman Habila an EU-MNCH trained Community Resource Person (CORP) visits Mrs. Talatu Ahmadu (3months pregnant ) at her residence in Choli - Fufore Local Government Area Adamawa State to enlighten her on why she should sign up for the EU-MNCH program at the Primary Health Care center within her community.

© EU Delegation Nigeria. Photo by Ochi Samuel, 2017.

*"I know better now having lost my first child after 2 weeks of being born to Pneumonia. My newborn son Musa is just 2 weeks and 4 days old, I'll ensure I watch and care for him with all that I've being taught at the primary health care center." Hafsat Umar*

Hafsat Umar is a beneficiary of the EU funded EU-MNCH project. She lives in a hard to reach community at Choli Fufore LGA. Adamawa State.

© EU Delegation Nigeria. Photo by Ochi Samuel, 2017.

*EU-MNCH Cares*

Mrs Roselyn Zubairu lost her 2 weeks old twins to Malaria and has also suffered several miscarriages. She was approached by an EU-MNCH trained Community Resource Person (CORP) who convinced her to sign up for the EU-MNCH antenatal classes at Choli Primary Health Care center within her community in Adamawa State.

© EU Delegation Nigeria. Photo by Ochi Samuel, 2017.

Amina Hassan has been a beneficiary of the EU-MNCH funded program since 2014. She gave birth to her daughter Aisha (2years old) under the care of EU-MNCH trained attendants. She had almost lost her life while giving birth to Habeeb and Shuaibu patronizing untrained traditional birth attendants. Amina and her children live in a hard to reach community at Maiha LGA. Adamawa State.

© EU Delegation Nigeria. Photo by Ochi Samuel, 2017.

*No longer ignorant on the importance of breast feeding*

Asabe Ali, a mother of two children, is a beneficiary of the EU-MNCH project. She lives in a hard to reach community at Yadim Fufore LGA. Adamawa State.

*A healthy child is a mother's pride*

10 month-old healthy and energetic Ummi Atiku was diagnosed with pneumonia at 7 months. She received free medical consultation from an EU-MNCH trained medical doctor at Bekaji Ward Yola South LGA Adamawa State.

*Outdoor community health enlightenment campaign*

An EU-MNCH funded outdoor billboard along Hayin-gada road in Girei LGA, Adamawa State. As part of the EU support to women and children in Northern Nigeria, several of these billboards have been erected in several locations in the State.
